Developer Notes & Sitewide Requirements

Applies to every page

How to read this document

H1 **Use as the page's single <h1>. Exactly one per page.**

H2 **Section heading, <h2>.**

H3 **Sub-heading inside a section (card titles, service names), <h3>.**

P Body copy, <p>.

LIST Bulleted or numbered list, <ul> / .

BTN Button / call-to-action link. Link target given in brackets.

IMG *Image placeholder. Text shown is the alt attribute. File name suggestion in brackets.*

NOTE Instruction for the developer or open item for the client. Do not publish.

Design direction

P Clean and simple: white background, charcoal text (#1F2328), one accent colour (construction yellow #E8A100). Generous whitespace.

P One sans-serif family (Inter, Manrope or Poppins). Bold headings, max ~70 characters per line.

P Real site photos only (excavators, dumpers, sand reaches, finished roads). No stock skyscrapers.

P Mobile first. Sticky header with logo, 6 nav links and a "Call Now" button. Floating WhatsApp button on mobile.

Header (all pages)

IMG *Mythri Infra logo [mythri-infra-logo.svg]*

Technical SEO Checklist

Applies to every page

LIST	Unique <title> and <meta name="description"> per page, exactly as given on each page sheet.
LIST	<meta name="keywords"> added as requested. Note: Google ignores this tag; it does no harm and some smaller engines read it.
LIST	Self-referencing canonical tag on every page. Force https and one version (with or without www).
LIST	Open Graph + Twitter tags: og:title = meta title, og:description = meta description, og:image = 1200×630 site photo with logo.
LIST	Clean, lowercase URLs as listed: /, /about, /services, /projects, /capabilities, /contact.
LIST	Exactly one <h1> per page; heading order H1 → H2 → H3 with no skipped levels.
LIST	Every <img> has the alt text given. Decorative icons use alt="". Serve WebP, under 200 KB, with width/height set and lazy-loading below the fold.
LIST	XML sitemap at /sitemap.xml and robots.txt pointing to it. Submit in Google Search Console.
LIST	LocalBusiness (GeneralContractor) schema in JSON-LD on Home and Contact, with both addresses and phone numbers. Organization schema with logo sitewide.
LIST	Click-to-call (tel:) and WhatsApp links tracked as events in GA4.
LIST	Page speed: target LCP under 2.5 s on mobile. Compress hero image; no autoplay video.
LIST	Set up Google Business Profile for the head office and link it from the Contact page map.
NOTE	Domain email (e.g. info@mythriinfra.com) to replace the Gmail address once the domain is live.

PAGE HEADER

IMG *Mythri Infra site team at a road construction project in Andhra Pradesh [about-hero-team.webp]*

H1 **About Mythri Infra**

P Two decades of groundwork experience, one name you can rely on.

OUR STORY

H2 **Our Story**

P Mythri Infra is an earthwork and infrastructure contractor based in Kakinada, Andhra Pradesh. Our team's journey in construction began in 2002, on highway and township projects with some of India's leading contractors. In 2016, we established Mythri Infra to bring that experience under one name.

P Today we handle earthwork, road construction, drainage, sand excavation and mining support works for main contractors, industrial clients and government bodies. Most contracts we take on are valued above ₹3 crore.

NOTE Client to confirm the 2002 (team experience) vs 2016 (firm established) framing.

OUR APPROACH

H2 **Our Approach**

P We believe in three things: finishing on time, never compromising on quality or safety, and treating our people well. Our staff and workmen are our biggest strength, and we keep communication open at every level, from site to head office.

LEADERSHIP

H2 **Leadership**

IMG *Mr. Dantuluri Raja Gopal Raju, Managing Partner, Mythri Infra [partner-raja-gopal-raju.webp]*

H3 **Mr. Dantuluri Raja Gopal Raju**

P Managing Partner

IMG *Mr. Dantuluri Murali Mohan Varma, Partner, Mythri Infra*
[partner-murali-mohan-varma.webp]

H3 **Mr. Dantuluri Murali Mohan Varma**

P Partner

NOTE Add a 2–3 line bio per partner once received from client.

VALUES

H2 ## What We Stand For

H3 ### On Time

P We plan the critical path before we start, so deadlines hold.

H3 ### Quality

P Work that passes inspection the first time.

H3 ### Safety

P Safety is reviewed and recorded in every weekly site meeting.

H3 ### Relationships

P Long-term ties with clients, suppliers, government bodies and local communities.

PEOPLE & COMPLIANCE

H2 ## Our People, Fully Protected

P Every worker on a Mythri Infra site is covered by:

LIST Minimum wages · PF & ESI · Wages paid to bank accounts · Bonus & allowances · Workmen colonies at project sites · Insurance for staff and workmen

PAGE HEADER

IMG *Excavator loading a dumper during earthwork by Mythri Infra [services-hero.webp]*

H1 **Our Services**

P From the first cut of the excavator to the final roller pass, we handle the groundwork that every project depends on.

SERVICE 1

H2 **Earthwork & Site Development**

IMG *Soil filling and land levelling at Kakinada SEZ by Mythri Infra [service-earthwork.webp]*

P Excavation, soil filling, land levelling and filling of low-lying sites for SEZs, housing layouts and industrial projects. Our own excavators, dumpers, graders and rollers keep the job moving.

P **Recent work:** Kakinada SEZ soil filling · APSHCL NPI housing layout, Tanuku (2023)

SERVICE 2

H2 **Road Construction**

IMG *Internal road under construction with grader and roller, Kakinada [service-road-construction.webp]*

P Highway works and internal roads for industrial parks and townships, from formation and sub-grade to compaction.

P **Recent work:** Internal roads, Kakinada SEZ (2024) · Warangal–Khammam highway road works

SERVICE 3

H2 **Drainage Works**

IMG *Site drain excavation work at an industrial site in Kakinada [service-drainage.webp]*

P Storm water and site drains planned and built to keep large sites dry, safe and usable through the monsoon.

P **Recent work:** Kakinada SEZ drain works (2021–22)

SERVICE 4

H2 ## Sand Excavation & Supply

IMG *Sand excavation and loading at an open sand reach in East Godavari [service-sand-supply.webp]*

P Manual and machine excavation, transportation, stocking and loading of sand for government schemes and private projects.

P **Recent work:** DLSC free sand policy reaches, East Godavari (2025) · APMDC sand excavation · Sand supply to L&T, Visakhapatnam

SERVICE 5

H2 ## Mining Support Works

IMG *Heavy excavator and dumpers at a coal mining site [service-mining-support.webp]*

P Excavation and haulage support for coal and mineral mining operations, with heavy machines such as the ZX 470.

P **Recent work:** ECL coal mining works, West Bengal (2021–22)

TEAM

H2 **Our Team**

P 30 construction staff and 200 skilled workmen. Each site runs with a Project Manager and a Project Accountant, reporting to the Managing Partner at head office.

IMG *Mythri Infra project hierarchy: Managing Partner, Project Manager and Project Accountant, site teams [team-structure.svg]*

NOTE Simple 3-level org graphic: Managing Partner (HO) → Project Manager + Project Accountant (Site) → Construction team & workmen / Accounts, stores & admin.

PROCESS

H2 **How We Work**

H3 **1. Study the Site**

P Site inspection, ground conditions and existing-structure survey before we price anything.

H3 **2. Price Honestly**

P A realistic tender based on actual site conditions, which we stand behind.

H3 **3. Plan the Critical Path**

P Risk review, a detailed schedule and clear scopes for every sub-contractor.

H3 **4. Review Every Week**

P Progress, safety, quality and environment discussed and recorded in weekly site meetings.

H3 **5. Control Cost**

P We flag variations early and suggest value-engineered alternatives before they become extra cost.
